WHAT IS...

PAR PROCESS FLOW

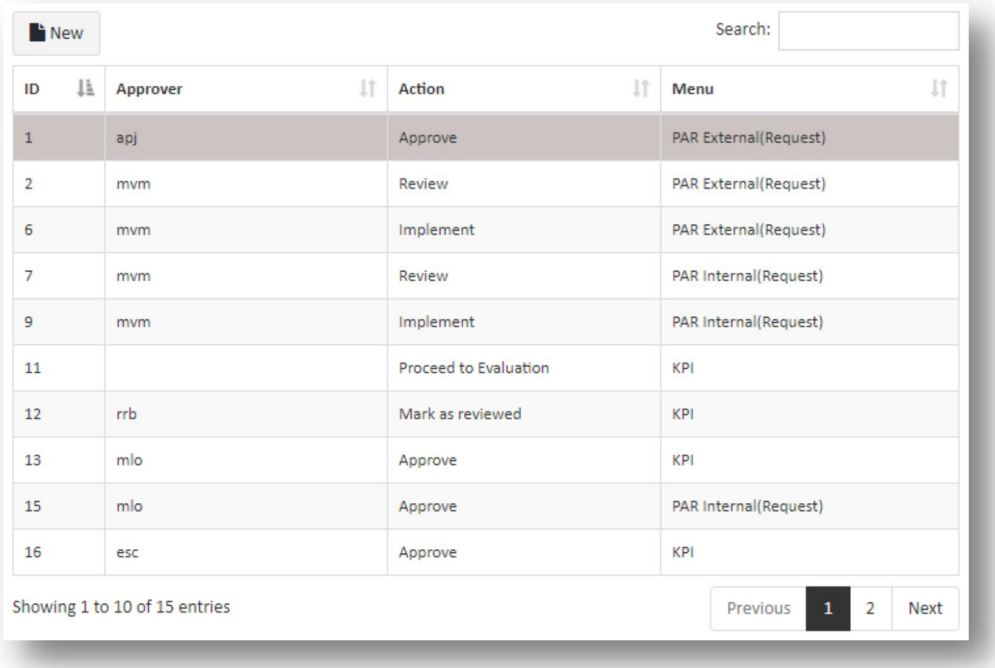

WHAT IS INSIDE THE APPROVAL FLOW?

This is where the approver / approval level for modules are set / maintained.

1. Click or hover your mouse to the Maintenance icon ( ) found in the vertical menu on the left side of your screen. The sub-menus will automatically shows-up and under General Info you will see the "Approval Flow".

2. Click PAR Process Flow and you will be redirected now to the "Approval Flow" page as shown below.

New

Search:

ID	Approver	Action	Menu
1	apj	Approve	PAR External(Request)
2	mvm	Review	PAR External(Request)
6	mvm	Implement	PAR External(Request)
7	mvm	Review	PAR Internal(Request)
9	mvm	Implement	PAR Internal(Request)
11		Proceed to Evaluation	KPI
12	rrb	Mark as reviewed	KPI
13	mlo	Approve	KPI
15	mlo	Approve	PAR Internal(Request)
16	esc	Approve	KPI

Previous 1 2 Next

3. Click  to add new Approver.

4. Make sure to populate all the required fields (*) as shown below.

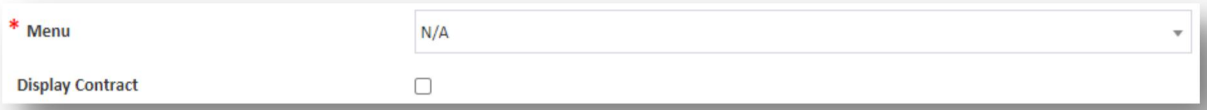

First, select the name of the approve in the drop-down list and set the level from 1 being the first to approve. The level is some sort a sequence of the approver.

Tick the "IsExternal" if the approver is for external employees only.

Now, select the menu in the drop-down where the selected approver will be one of the approvers. Tick the "Display Contract" if the approver's name has to be at the approved contract / request document.

5. Now, click  to save the new PAR Process Flow details.

6. [OPTIONAL]

Click  to delete/remove an existing process flow connection.
